

Recycling Program

Bella Dura[®] fabrics are designed to provide the ultimate performance for any design environment -- residential or contract, indoors or out. Woven with an earth-friendly proprietary polyolefin fiber, Bella Dura fabrics are inherently and permanently stain-resistant, microbe resistant, and bleach cleanable, exceed 50,000 double rubs and 1500 lightfast hours, and are 100% recyclable at the end of their useful life.

Bella Dura fabrics and yarns can simply be sent back to Bella Dura and inserted into a recycle stream where they are safely and easily converted into inert black plastic resin pellets, which can then be used in a myriad of other products and industries. These reclaimed pellets offset the need for virgin plastic in production and are typically more cost-effective than virgin products--plus, they don't compromise the performance of the items that are produced.

Bella Dura's recycle stream is a closed loop -- beginning as a post-industrial product and ending as yet another usable resource for the manufacturing of many common goods.

Bella-Dura® Recycling Program

Company Name: _____

E-mail: _____

Phone: _____

Address: _____

Materials to be recycled: Fabric____ Fabric Scrap____ Used Upholstery Fabric _____

If fabric, please note application and any other details _____
(i.e. residential, upholstery, contract upholstery)

On behalf of (Company Name)_____

I certify that the products submitted for recycling are made of 100% Bella-Dura® fabrics and proprietary yarns.

1. A small sample/swatch* must be submitted to Bella-Dura for analysis and validation that the product(s) is suitable for recycling. Samples should to be sent along with this completed form to:

Bella-Dura® Recycling
c/o Swavelle Group
325 Midland Avenue
Garfield, NJ 07026
